C. Service and Transaction Charges

Fees & Charges including overdue charges levied on monthly/annualized basis, as may be applicable from time to time, are payable by Cardholders for specific services provided by AU Small Finance Bank to the Cardholder or for defaults committed by the Cardholder with reference to his card account.

D. Interest Free Period

The interest free credit period could range from 18 days to 48 days subject to the scheme applicable on the specific Credit Card (please refer to the Schedule of Charges) and the submission of claims by the merchant. However, this is not applicable if previous month's balance has not been cleared in full or if the Cardholder has availed cash from ATM.

Interest free period would be applicable only if all previous dues are paid in full and no unpaid balance is carry forwarded from earlier/previous months and interest free period is suspended if the Total Amount Due is not cleared by the due date.

Example: AU Small Finance Bank Zenith Credit Card has an interest-free credit period of up to 48 days, which means that a customer who has a billing date of 15th of the month can spend on his Card from 16th April to 15th May, his bill will be generated on 15th May and his Payment Due Date will be 2nd June. Hence a purchase made on 20th April will have a credit period of 44 days.

2. Charges on Revolving Credit

- Charges on Revolving Credit are payable at the applicable monthly percentage rate on all transactions from the date of transaction, in the event where Cardholder chooses not to pay his balance in full and on all cash advances taken by the Cardholder, till these are paid on the card account. If these charges are payable, these are debited from the Cardholder's account till the outstanding on the card is paid in full. In case of cash advances, Charges on Revolving Credit are applicable from the date of transaction until the payment is made in full.
- When a Cardholder carry forwards the Card Outstanding amount or avails Cash Advance facility, Charges on Revolving Credit are calculated by average Daily Balance Method and are applied to the balances carried forward & on the freshly billed transactions.
- If a Cardholder avails the revolving credit facility on AU Small Finance Bank Credit Card and chooses to pay an amount less than the total amount due reflected in the monthly statement, the entire outstanding amount including all new transactions will attract Charges on Revolving Credit and these charges are applicable till such time as the previous outstanding amounts are paid back in full.
- Late Payment Charges would be applicable if Minimum Amount Due is not paid by the Payment due date, funds need to be credited to AU Small Finance Bank Card account on or before the payment due date, to avoid these charges (refer Schedule of Charges). Over limit Charges are applicable on total outstanding exceeding the Credit Limit at the rate of 2.5% of the over limit amount subject to minimum of ₹ 500.
- Cash advance Charges would be applicable if Credit Card is used to withdraw Cash from ATM. Interest charges are also applicable for Cash withdrawal along with Cash advance charges

The following illustration would indicate the methodology of calculating Charges on Revolving Credit:

- Assume that a Cardholder has paid all previous dues and do not have any outstanding in his Card Account. His statement date is 15th of every month and applicable Charges on Revolving Credit are at 3.59% p.m.

Transaction	INR
Purchase on April 10, 2024	₹ 2,000
Total Amount Due on statement dated April 15, 2024	₹ 2,000
Minimum Amount Due on statement dated April 15, 2024	₹ 100
Payment due date - May 3, 2024	
Purchase on May 7, 2024	₹ 800
Payment on May 10, 2024	₹ 1,500
On statement dated May 15, 2024, following Interest Charges on Revolving Credit will be levied:	
Interest Calculations @ 3.59% per month:	
a. Interest on INR 2000 for 30 days (from April 10 to May 9)	₹ 70.82
b. Interest on INR 500 for 6 days (from May 10 to May 15)	₹ 3.54

c. Interest on INR 800 for 9 days (from May 7 to May 15)	₹ 8.50
Total Interest Charged in the statement dated 15th May	₹ 82.86

The following is the list of transactions that he has done on his card account and the Interest Charges on Revolving Credit are applicable:

- Please Note: Interest calculated = (Outstanding Amount * 3.59% p.m. * 12 months * no. of days) / 365.
- Please note that the all charges & fee including Charges on Revolving Credit or any other charges are subject to change at the sole discretion of AU Small Finance Bank.
- Also please note that if the Cardholder exceeds the Credit Limit of the accounts, Over Limit Charges will be levied on the account. For a list of charges that may be levied at specific instances, please refer to the Schedule of Charges available at the end of this document.
- Minimum Amount Due (MAD) is 5% of Principal + 5% of (Fees and Interest) + EMI + Membership Fee + Applicable taxes rounded-off to the next multiple of 10th digit or ₹ 100 whichever is higher.

Example: If the MAD amount is ₹ 1503.50, post computation it will be rounded-off to next multiple of 10th digit i.e. ₹ 1510. Also, any unpaid MAD from the previous statements will also be added to the current MAD to arrive at the MAD payable in the current statement.

The following illustration would indicate the methodology of calculating Late Payment Charges:

Payment of at least Minimum Amount Due i.e. ₹ 100 in the above example, is required to be paid by the payment due date (3rd May), to ensure that no late payment charges are levied. If minimum amount due is not paid, late payment charges would be levied as per the below table:

Total Amount Due Statement Balance	Late Payment Charges
Less than or equal to INR 100	NIL
Above INR 100 and up to INR 500	₹ 100
Above INR 500 and up to INR 5,000	₹ 600
Above INR 5,000 and up to INR 10,000	₹ 700
Above INR 10,000 and up to INR 20,000	₹ 800
Above INR 20,000 and up to INR 50,000	₹ 1,100
Above INR 50,000	₹ 1,300

Thus, in the above example, since the minimum amount due of ₹ 100 is not paid by the payment due date of May 3, 2024 and since Total Amount Due was ₹ 2000, late payment charges of ₹ 600 will be levied on 3rd May, 2024. This charge will also be applicable if you make a payment of less than the minimum amount due by the payment due date. GST @18% of late payment charges will be applicable on late payment charges.

Late payment charges will be levied on the outstanding amount after the due date, and not on the total amount due.

Illustration:

Scenario 1	Scenario 1	Total Amount Due (TAD)
Statement Generated	10-Apr-24	₹ 25,000
Due date	28-Apr-24	
No payment done by due date		
Late payment charges will be calculated on outstanding of INR 25,000		

Scenario 2	Scenario 1	Total Amount Due (TAD)
Statement Generated	10-Apr-24	₹ 25,000
Due date	28-Apr-24
