1. Introduction

1.1 With effect from November 1, 2004, Reserve Bank of India withdrew its earlier instructions with respect to 1) Immediate credit of local/ outstation cheques, 2) Time frame for local/ outstation cheque/instrument collection & 3) Interest payment on delayed collection. Instead, RBI advised all banks to formulate a comprehensive and transparent policy for cheque collection and instruments lost in transit, covering all above mentioned aspects.

1.2 The Cheque Collection policy provides the liability of the Bank by way of interest payments due to delays in non-adherence to standards set by the Bank itself. Compensation by way of interest payment, where necessary, shall be made without any claim from the customer.

2. Guiding Principles

The Cheque Collection policy of the Bank is a reflection of its effort to provide better service to customers and set higher standards for performance. The policy is based on principles of transparency and fairness in the treatment of customers. The Bank is committed to provide quick collection services & convenience to customers with the increased use of technology in the payment & settlement process.

3. Arrangements for Different Types of Cheques/Instruments

3.1 Local Cheques

3.1.1 All cheques payable locally would be presented through the prevailing clearing system.

Cheques deposited at branch counters and in collection boxes within the branch premises before the specified cut-off time will be presented for clearing on the same day. The applicable cut off timings will be displayed on the cheque drop box and in branches for the benefit of customers. Cheques deposited after the cut-off time and in collection boxes outside the branch premises will be presented in the next day clearing cycle.

3.1.2 The Bank will credit the customer account on the same day the clearing settlement takes place. The cheque return schedule of the clearing house will determine when the amount so credited can be withdrawn.

3.1.3 Bank branches situated at center's where no clearing house exists, will present local cheques on drawee banks across the counter and the Bank will attempt to credit the

proceeds at the earliest but not later than 3rd working day from the date of deposit by customer.

3.1.4 Non-CTS cheques will be presented in the clearing house at the prescribed intervals which is presently once in week on each Monday or as decided by RBI, from time to time. In certain categories of cheques, (subject to amendments in guidelines) or instruments demanded by the correspondent Bank or Image Quality Assessment (IQA) failure will be presented in physical form to the drawee Bank.

3.2 Speed Clearing

- In order to facilitate faster collection of outstation cheques, the Reserve Bank of India started a special clearing process called Speed Clearing by leveraging the core-banking-solutions (CBS) implemented in banks. Outstation cheque collection through collection basis takes around one to three weeks' time depending on the drawee center, however under Speed Clearing, the proceeds from the cheques are realized as per the clearing cycle of the location.
- The Speed Clearing mechanism facilitates clearance of outstation cheques at the source /deposit location itself and there will be no physical movement of cheques to the drawee location. The complete process of payment including debits to client accounts and verification of signatures etc. is handled by the branch at deposit location.

1.2 Outstation Cheques

- Banks undertake collection of cheques deposited by customers, some of which also could be drawn on non-local bank branches, known as Outstation Cheques. Cheques drawn on other banks at outstation centers will normally be collected through Bank's branches at those centers.
